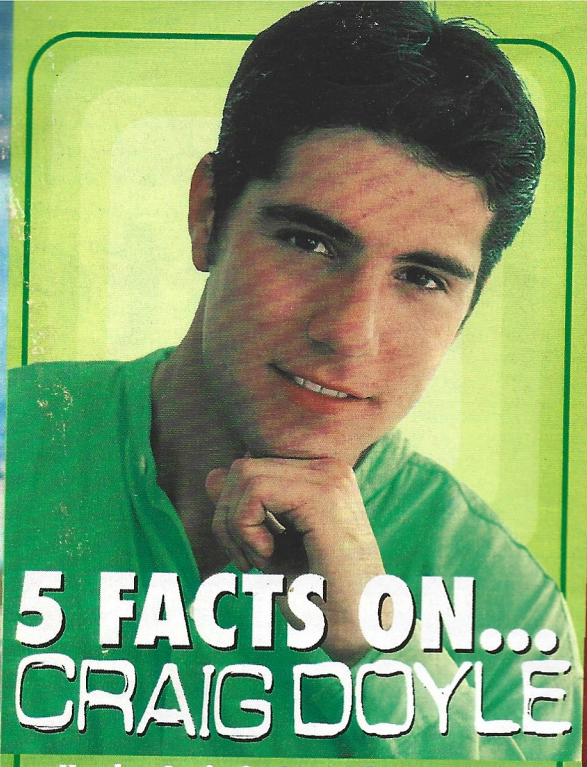
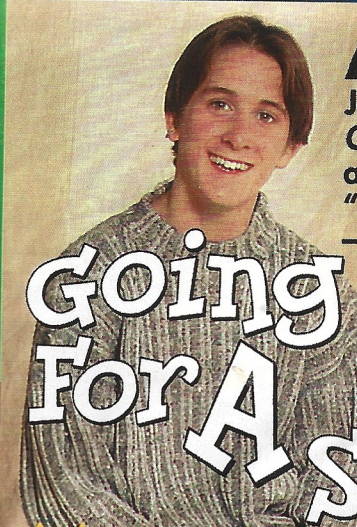
The One And Only

We know from your letters you're all huge fans of *GMTV*'s new teen programme *The One* following the fortunes of Billy, Thomas, Trevor and Tim as they try to become the biggest band in Britain!
All the lads play themselves and were all signed straight away to a major record company. Their first single *One More Chance* was produced by Ray Hedges who's worked with Boyzone and Take That and they'll have a second single out in January and an album in April. But if you can't wait till then, why not write to the boys at:
The One, c/o Mercury Records, Chancellor's House, Chancellor's Road, London W6



5 FACTS ON... CRAIG DOYLE

***Hunky Craig is 25 and comes from Dublin.**
***He can't believe he's landed a job as a presenter on *Tomorrow's World!* "I used to watch it as a kid and it never occurred to me that I'd ever meet one of the presenters let alone appear on it myself one day!" Craig is also a regular presenter on ITV's *Disney Club*.**
***He's already had a taste of fame after being mobbed by fans at Wembley as he reported from a Take That concert! "I find that sort of attention really embarrassing! I've got my feet firmly planted on the ground — my mates and family wouldn't let it be any other way."**
***He loves sports and plays rugby, football and has recently started wind-surfing!**
***His ambition is to co-host his own chat show with his brother, Keith!**



Going For A Song!

Another TV star would like to branch into the music scene! John Pickard who plays David in *2.4 Children* says he's not a bad singer and would like to do a bit more... "I'd like to have a go at everything — a part in a musical would be great. I want to try my hand at all sorts of things so at least I can look back in ten years time and say I tried!"
